Friuli Venezia Giulia, the ideal place to boost your business.

The first Italian region classified as a Strong Innovator by the European Commission, Friuli Venezia Giulia boasts an excellent and dynamic R&D ecosystem that places it at the forefront of innovation. With its network of tech companies, scientific hubs, universities, research labs and incubators, it is the ideal environment to develop your innovative projects. Furthermore, its strategic location makes the region a logistics hub to expand across Europe and beyond.

Whether you are building the next AI, working on quantum computing or developing new technologies, Friuli Venezia Giulia is the place to be.

Select Friuli Venezia Giulia Agency

As the official investment promotion agency of the Friuli Venezia Giulia Autonomous Region, we support companies and investors throughout every stage of their projects. Our team assists you in choosing the right location, establishing your presence in the region and accessing funding opportunities, while facilitating connections, sourcing the best local talent for your business and providing comprehensive aftercare services.

Territory

Area Science Park

Area Science Park is a national research body supervised by the Italian Ministry of University and Research.

It was established in 1978 to develop and support scientific and technological research.

Area Science Park has accrued specific skills in developing and implementing technology transfer initiatives and innovative services to support deep tech innovation.

Area Science Park and ITA have been organizing the Italian Expo at CES since 2018.

Confindustria Alto Adriatico

Confindustria Alto Adriatico (CAA) is the association of companies operating in the provinces of Pordenone, Trieste and Gorizia. Part of Confindustria national system, CAA represents more than 1.400 companies. These companies are grouped into 14 product sectors and employ over 80.000 people in total. It is a part of Club 15, a network that unites the territorial associations of Confindustria from the Italian provinces with the highest industrialisation rates. The mission of the Association is to protect and represent the enterprises' interests in dealing with the political world, with social and political organizations and with local authorities as well as with trade unions. CAA also provides its associated firms with a great variety of services.
